

## JTS23DN-AT/OD

### Color Day/Night Auto-Tracking Outdoor PTZ Camera

#### Features

- 1/4" Sony™ Ex-View Interline Transfer CCD
- 480 TV Lines
- Object Auto-Tracking Capable (requires keyboard/joystick controller)
- Color under normal illumination, B/W down to 0.02 Lux
- 23X Optical, 8X Digital Zoom
- Integral weatherproof Dom

**Description** - The PT23DN-AT/OD is an outdoor Pan, Tilt, Zoom, color auto-tracking CCTV camera in a weatherproof dome housing. A Hi-Resolution Sony™ Ex-View CCD provides 480TV lines, in color at normal light levels, switching to Black and White down to an excellent minimum illumination level of 0.02Lux. It can detect and track moving objects and send an alarm signal without human interaction making these cameras particularly suited for applications requiring both attended and unattended surveillance. The camera is integral to the weatherproof dome housing. A keyboard/joystick controller is available and the camera can also be controlled from V, LE, R and SMD Series DVRs. With 23X optical zoom plus 8X digital zoom, high speed pan and tilt, 100 presets, multi dip-switch settable control protocols, an intelligent pattern tour and object auto-tracking, the PT23DN-AT/OD provides cutting edge technology and a high degree of reliability at a remarkably competitive price.

**Recommended** - for use outdoors (or indoors where environmental protection for the camera is needed) where CCTV video is to be produced in low light conditions as well as normal daylight illumination. The object auto-tracking feature makes this PTZ camera particularly suited for applications requiring both attended and unattended surveillance.
